OBJECTIVE

Motivated Computer Science graduate with a strong foundation in programming, databases, and problem-solving. Seeking an entry-level opportunity in the technology industry to apply technical skills, contribute to innovative solutions, and continuously learn and grow in a collaborative and dynamic environment.

SKILLS

Programming Languages & Technologies: Python, C, Java, HTML, CSS

Databases: SQL, DBMS

Networking: Computer Networking Fundamentals

Tools & Methodologies: Microsoft Excel, PowerPoint, Documentation

Analytical Skills: Problem-solving, Logical reasoning, Troubleshooting

Soft Skills: Communication, Team collaboration, Adaptability

EDUCATION

Bachelor of Science (B.Sc) – Computer Science (Minor: Mathematics)

ASN Degree College, Tenali

2023 – 2026 | Percentage: 90.25%

Intermediate (MPC)

Sri Chaitanya Junior College, Tenali

2021 – 2023 | Percentage: 96.2%

Secondary School Certificate (SSC)

Nehru Niketan E.M High School, Tenali

2020 – 2021 | Percentage: 96.3%

EXPERIENCE

AI-Based Image Transformation Tool (Toonify) – Computer Vision Project | 2025

- Developed a Python and OpenCV-based application to convert real-world images into cartoon, sketch, and pencil-style effects.
- Applied image processing techniques including edge detection, bilateral filtering, color quantization, and stylization filters.
- Built a Streamlit web application for image upload, filter selection, and side-by-side comparison of results.

PROJECTS

Secure Online Examination System with One-Time Facial Verification

- Developed a Python-based secure online examination system that verifies candidate identity using facial recognition before the exam begins.

Automated Resume Builder and Skill Extraction System

- Built a Flask-based web application that generates structured resumes and extracts skills automatically.

CERTIFICATIONS

Tata Group Data Analytics Job Simulation – Forage

- Applied data analytics techniques to analyze business datasets and generate actionable insights.

Fundamentals of Python Programming – Infosys SpringBoard

- Learned core Python concepts including variables, control structures, functions, and basic problem-solving.

Artificial Intelligence Fundamentals – IBM

- Explored fundamental AI concepts and understood their practical applications across real-world domains.

SQL (Basic) – HackerRank

- Practiced SQL queries for efficient data retrieval, filtering, joins, and aggregation operations.

Data Structures Using C – SWAYAM (MHRD)

- Implemented core data structures in C while strengthening algorithmic thinking and problem-solving skills.

ACHIEVEMENTS

- Selected for Infosys Internship 6.0, recognizing technical potential and commitment to learning.
- Completed the Aspire Leaders Program, demonstrating leadership and teamwork skills.
- TCS iON NQT (Non-Tech) Score: 83%, reflecting strong aptitude abilities.

HOBBIES AND INTERESTS

- Exploring emerging technologies and building small projects to enhance technical skills.
- Staying updated with technology trends and current affairs.
